2 copies of plans must be submitted.

- a. Be drawn to scale
- b. Basic elevations, with grade notes
- c. Specify exterior building materials and color
- d. Dimensions of improvement
- e. Drawing showing side view of improvement

3. TREE REMOVAL

No live or dead tree over 6 inches in diameter, as measured one foot above ground level, may be cut down or removed from any lot or from common property, for any reason, without prior written consent of the AEC Committee

Site planning and clearing for new construction should be accomplished, insofar as is feasible, in a manner which respects and preserves existing trees, vegetation and land contours. Trees immediately adjacent to the construction site should be protected to avoid damage.

4. APPROVAL

Approval by the Committee is not a guarantee that the project can be completed as presented. The owner or contractor must insure that the buildings, structures or improvements are located on the property as shown on the site plan. Plan approval by the Committee does not imply responsibility for the actual location of the buildings or structures.

Approvals are contingent on the accuracy and validity of information contained in the application. Any misrepresentation will void the permit.

Yes, I have read the Architectural and Environmental Control Rules and Regulations and hereby acknowledge that those requirements will be complied with.

Owner: _____ Contractor: _____

Date: _____

The Oak Run Architectural Control Committee will inform the owner of items not shown in plans or specifications. Until these items are provided, approval will not be granted by the Committee.
