Please review Rule 600.2 and 600.3 - Tree Removal and Burning Regulations

The following are authorized reasons for tree removal within the development.

1. The tree is located within an area of construction. *A construction permit is required before an application for tree removal will be approved.
2. The tree is dead, dying or diseased.
3. The tree is an undesirable variety. (trash tree)
4. The tree is inhibiting the growth of other more desirable trees.
5. The tree poses a direct risk to a structure.

Please mark the tree(s) with bright paint, tape, or yarn, for easy identification. If we are unable to clearly identify the tree you want removed, approval of your application may be delayed. Also, draw a simple sketch below clearly marking the location of the tree(s) to be removed with respect to your lot.
